Current Book & Speaking Topic

What RU Thinking?: Foundations of the Christian Mind

In its third printing, Dr. Stafford's work, The book "What Are You Thinking? Foundations of the Christian Mind" delves into the intricate relationship between thought processes and belief systems, particularly from a Christian perspective. First published in 2010, the book aims to make sense how the Bible provides clarity and guidance on foundational areas of thought. It explores how a Christian should think differently from individuals of other religions or secular worldviews, what constitutes a Biblical worldview, and why we believe what we believe.
